The layout of the Georgian bars is chosen by the client

*The colour palette can be found at the end of the document.

Superior

Glass unit – double-glazed, 18 mm

UW – 2.8 W/(m²K)

Type of glass – plain or toughened

Glass thickness – 4 mm

Hinges – adjustable

Architraves – 19x95 mm

Frame depth – 56 mm

Sash thickness – 54 mm

Opening direction – inward opening

- Single window – inward tilt and turn opening.
- Double window: right leaf – 2 positions (tilt and turn opening), left leaf – 1 position (side-hung turn opening)

Double windows – open fully, no central mullions.

It is possible to have non-opening windows

Sizes of the windows are available within size ranges listed below (without profile):

- Opening, single window (width – 560-960 mm, height 560-2160 mm)
- Opening, double window (width – 960-1960 mm, height 560-2160 mm)
- Non-opening, single window (width – 380-2160 mm, height 380-2160 mm)

Hardware of the windows (handles and hinge covers) – non-shiny silver colour as standard.

Adjustable to the colour of window frames and window sashes

Windows sills (protects frame from the water), the colour of the sills – brown

If the window is anthracite-colored, the drip edge is also anthracite-colored.

Option to have these factory painted in anthracite grey (RAL 7016), white (RAL 9016), brown wood (RAL 5070)*

Georgian bars (decorative grids of the window) – optional, installed on the outside

The layout of the Georgian bars is chosen by the client

You can also choose windows with window shutters (double leaf shutters)

*The colour palette can be found at the end of the document.

Premium

Glass unit – 28 mm

UW – 2.6 W/(m²K)

Type of glass – plain or toughened

Glass thickness

- Plain – 4 and 4 mm
- Toughened – 6 mm

Hinges – adjustable

Architraves – 19x95 mm

Frame depth – 68 mm

Sash thickness – 68 mm

Opening direction – inward opening

- Single window – inward tilt and turn opening.
- Double window: right leaf – 2 positions (tilt and turn opening), left leaf – 1 position (side-hung turn opening)

Double windows – opens fully, no central mullions

It is possible to choose non-opening windows

Sizes of the windows are available within size ranges listed below (without profile):

- Opening, single window (width – 560-960 mm, height 560-2160 mm)
- Opening, double window (width – 960-1960 mm, height 560-2160 mm)
- Non-opening, single window (width – 380-2160 mm, height 380-2160 mm)

Hardware of the windows (handles and hinge covers) – brown colour as standard.

Adjustable to the colour of window frames and window sashes

Windows sills (protects frame from the water), the colour of the sills – brown

If the window is anthracite-colored, the drip edge is also anthracite-colored.

All windows (window frames, sashes and architraves) come in natural pine wood colour
